Software Engineer | Backend Engineer

With more than 4 years of industry experience, I am a seasoned Software Engineer specializing in backend engineering, proficient in utilizing Node.js with TypeScript. A proven track record of success in developing software systems, ensuring 99.9% uptime. Proficient in multiple platforms, languages, and embedded systems, resulting in 30% faster development. Known for improving code efficiency by 40% and lowering resource consumption by 25%. A collaborative team member, known for boosting team productivity by 20%. Committed to continuous improvement, demonstrated by completing 100 hours of training in the latest technologies.

WORK EXPERIENCE

Software Engineer • Lagos, Nigeria   01/2020 – 04/2023
Proddly LLC

Enhanced system performance by 20% and decreased latency by 15% through the creation of an API gateway.
• Engineered a scalable, high-availability web application handling 3,600+ concurrent users with minimal downtime.
• Deployed OAuth authentication protocols for REST APIs, resulting in a 40% decrease in unauthorized data access incidents and a 30% boost in client satisfaction.
• Accelerated time-to-deployment from 3 days to 18 hours by implementing a CI/CD pipeline, resulting in a 40% increase in release frequency and a 25% reduction in production incidents.

Junior Backend Developer • Lagos, Nigeria   06/2018 – 11/2019
Proddly LLC

Crafted RESTful APIs that facilitated seamless integration with backend services, resulting in a 30% reduction in app response time and a 20% increase in user engagement.
• Created RESTful APIs that served as the backend for a web application, enhancing scalability and decreasing latency by 15%.
• Streamlined database queries to optimize application performance and slash response times by 10%.
• Enforced a micro-services architecture, yielding a 50% decrease in development time and a 40% boost in system scalability through heightened modularity and diminished inter-component dependencies.

EDUCATION

Bachelor of Science – B.Sc in Computer Science
Olabisi Onabanjo University of Nigeria

Certificate in Backend Engineering – Coursera 2020

SKILLS

TypeScript, Node.JS, Express.JS, MongoDB, RESTful APIs, Micro-services, Git, Github, React.JS, Azure, AWS, CI/CD Pipeline, Mongoose, Microsoft Creative Suite, Effective Communication, Collaboration, Team Leadership, Problem Solving, Adaptability, Mentorship and Knowledge Sharing, Relationship Building, Conflict Resolution, Emotional Intelligence
